BBZ8000 uses a completely different assembly process from its older brother, BBZ6000 plus a host of new safety features and lightweight components.

In addition, it's **360° reflective**, non-metallic and has built in **EN certified ankle impact protection (AN)** and Achilles support.

BBZ8000 features a super lightweight nano safety toecap, a lightweight anti-penetration midsole and a weight saving sole bonding process.

It's comparable in weight to its moulded polyurethane competitors and just like its older brother it fits like a glove, not a tube.
