A high quality diet formulated to provide the balanced energy and protein requirements of young lambs.

Rapid lamb can be introduced as a creep feed and may then be offered ad lib to finish lambs at 12 to 14 weeks of age if required.

If fed ad lib to finish then a typical lamb will consume about 40kg of feed if still on the ewe or 70 to 80kg if weaned.

All the rations are manufactured using only the best quality raw materials and have generous levels of vitamins and minerals added.
