Description

Salt of the Earth Water Softening Salt Tablets (10 x 25kg)

** Please Note: We can deliver to anywhere in mainland UK (excluding the Highlands, Islands and the Congestion Charging Zone) **

Made from refined natural high-quality sea salt, these Salt Tablets are best used in Water Softening applications.

The salt is sustainably produced by solar evaporation of seawater in open ponds located near the coast of the Red Sea.

The large salt granules dissolve slowly, which optimises salt effectiveness to remove harmful materials from your water system & appliances.

Better for your home, skin, hair and bank balance.
