Description

Milwaukee M18 Switch Tank (Shell)

MW-4933464965

- The M18™ SWITCH TANK™ 15 l backpack fluid pump sprayer delivers the industry's first interchangeable tank design with no manual pumping
- The interchangeable tank design isolates the pump, hose and wand, separating wearable components from the M18™ SWITCH TANK™ powered base
- Add on and replace tank assemblies to eliminate cross-chemical contamination and lower cost of ownership
- 120 PSI (8.27 Bar) pump pressure
- Features adjustable pressure selection dial to best suit user requirements
- Up to 2 hours of run time (12 or more tanks) with 4.0 Ah battery pack
- Flexible battery system: works with all MILWAUKEE® M18™ batteries

Working faster and simpler than conventional garden sprayers, the MILWAUKEE® M18™ SWITCH TANK™ cordless garden sprayer is a brand-new solution to outdoor spraying, concrete cutting, coring, and cleaning tasks. Bringing together the rechargeable batteries and outstanding power of the M18™ tool system, our electric sprayers make contractors' jobs easier. With old-fashioned pump-action sprayers, much of the user's time on site is spent prepping the tool – especially if there is a large area that needs to be sprayed, cleaned, or doused with fluid. Battery sprayers work completely differently, offering a raft of benefits. With the M18™ SWITCH TANK™ cordless sprayer system, slow and arduous pump-action is a thing of the past – slot in an M18™ REDLITHIUM™ battery, and spray up to 12 tanks' worth of liquid from the ultra-compatible nozzle. Tanks can be quickly swapped out interchangeably, and once the battery is spent, simply plug in another and you're good to continue using the electric pressure sprayer with almost zero downtime. The SWITCH TANK™ pressure sprayer system can be used with the M18™ SWITCH TANK™ 15L Water Supply or the M18™ SWITCH TANK™ 15L Chemical Sprayer. Each is semi-transparent to give the user a clear view over their sprayer liquid capacity and UV-resistant to preserve the liquids inside. To boost site safety and prevent environmental risks, both also have sturdy handles and wide-mouthed refilling holes to prevent spillage. The attached hoses have multiple pressure settings to choose from, adjustable spray patterns, and integrated strainers to prevent ingress of dirt, dust, and other liquids.

Attributes

Technical Data	
Flow Rate [Litres Per Minute]	0.4 – 2.0
Kit Included	1 x M18 B4 Battery pack, M12-18 C Charger, No kitbox or bag supplied
Pressure (Bar)	1.38 – 8.27
Spray Distance (Meters)	7.6
Tank Capacity	15 Litres
Battery Pack Capacity	4.0
Voltage	18v
Weight	5.0kg

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
