Hozelock Solar Outdoor Shower

This freestanding Outdoor Shower uses solar technology to provide free warm water, heated directly by the sun.

Easy to use, simply connect and let the power of the sun heat your water.

With the base capturing a large surface area of sunlight which is faster than other vertical showers, water can be heated in as little as 2 hours (weather conditions dependent).

The base automatically fills with water into coils so when you are ready just open the adjustable mixer tap. The ergonomic spray head design produces a strong rose spray pattern which is ideal for showering underneath.

Weighing in at just 7kg and an ideal height of 210cm, a sustainable option for all members of the family, albeit cooling off from the heat or during leisure activities.

Like this Hozelock Solar Outdoor Shower? We have a great range of products to help you create your perfect garden so why not browse our huge **Garden Collection** today.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
