Our Price: £649

Description

High Quality Cutter Deck – The Weibang Virtue 50 SVP petrol lawnmower has a deck pressed from high quality steel. The deck is designed for a long life and optimum performance for collecting, mulching and side discharge

Weibang Virtue SVP Lawn Mower Deck

Side Discharge – The side discharge function is best used in areas of longer grass. The mower blade cuts the grass and is then quickly discarded out of the discharge chute at the side of the mower deck keeping the deck clear for optimum mowing

Weibang Virtue SVP Side Discharge

Mulching – The Virtue 50 SVP is supplied with a mulch plug which can be inserted into the discharge chute preventing the grass cuttings from leaving the cutter deck. Instead, they are recut by the mower blade into tiny pieces before being dropped back into the ground. For maximum mulching performance, a dedicated mulching blade is available

Weibang Virtue Mulching

Variable Speed Wheel Drive – The 50 SVP features a newly developed PRO Variable Speed Gearbox which enables the user to set the wheel drive speed using the controls on the handle bars. The variable speed drive is useful when working on lawns with different terrains or mowing conditions

Weibang Virtue Variable Speed Gearbox

Large Capacity Grass Collector – The large 60 litre grass collector features an specially designed fabric to ensure optimum airflow which is required so that the grass boxes are filled to maximum capacity in all conditions

Weibang Virtue Grass Collector
