

Blue Horizons Stabilised Chlorine Granules 5kg

38-10101

Our Price: £34.99

Description

Blue Horizons Stabilised Chlorine Granules 5kg

A traditional, granular chlorine donor that is still popular with many pool owners that like 'dose rate' flexibility.

These granules are rapid dissolving making prep-dissolving & application easy.

Granules have a pH value of about 6.0 - 7.0, which is fairly close to the ideal pool pH level and so will have little effect on the pH level of your pool water.

Contain Cyanuric acid (chlorine stabiliser), which is beneficial for outdoor pools as it reduces the amount of chlorine lost to sunlight.

Like these easy to use Chlorine Granules? Why not look at our other [Swimming Pool Products](#)?
