Description

Vitax Q4 Rootmore 250g

Contains a unique blend of mycorrhizal fungi, seaweed, humates, beneficial bacteria and biostimulants to create stronger more resilient plants.

Ideal for planting out or when transferring plants to new pots, simply add Q4 Rootmore to the bottom of the planting hole so roots are in close contact.

Also promotes a healthy bioactive root zone for vigorous and robust plant growth with minimal requirements for additional fertiliser.

We have a great range of products to help you create your perfect garden so why not browse our huge **Garden Collection** today.

Follow us on **Facebook** to keep up-to-date with our latest news, offers & promotions.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
