Description

Werner 6 Tread Fibreglass Platform Step Ladder

22-48405

Werner 6 Tread Fibreglass Platform Step Ladder

Constructed using extremely durable, non conductive, seven-layer fibreglass rails that are highly resistant to weathering.

A platform height of 1.40m enables a safe working height of 3.15m (10ft 4") making this ladder ideal for any job around the worksite.

Ideal for working around electricity, this ladder features a multi-functional HolsterTop to keep tools organised and limiting the need for trips up & down.

Other features include slip-resistant steps for comfortable standing and EDGE bracing to help prevent rail damage.

Approved to the latest EN131 standard with 150kg Load capacity.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
