Our Price: £29.99

GreenChem AdBlue 20L with Integrated Spout

47-08044

Description

GreenChem AdBlue 20L with Integrated Spout

AdBlue[®] is a highly purified colourless liquid. It contains demineralized water and urea (32.5%).

Used with diesel engines using SCR(Selective Catalytic Reduction) technology that reduces harmful emissions (NOx).

AdBlue[®] is injected into the catalyst of the SCR system, where it triggers a chemical reaction with the ammonia.

This chemical reaction converts the toxic nitrogen oxides (NOx) into nitrogen (N₂) and water vapour (H₂O).

Water vapour and nitrogen are naturally occurring gasses that are harmless to the environment.

Supplied with an innovative spout which allows the product to flow freely, saving time and effort.

**** Please Note: We can deliver this product within an 18 mile radius of one of our branches (restrictions apply).**

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
