Description

Portwest S548 Hi-Vis Ultrasonic Heated Tunnel Jacket Orange/Black

Stay warm and protected with this heated high-performance jacket, combining durability, style, and eco-conscious design.

Crafted from breathable, windproof, and water-resistant fabric with PFAS-free Texpe^l™ Splash Eco technology, water beads off effortlessly, while heat-sealed seams enhance weather resistance. The soft Insulatex[™] lining efficiently traps heat to keep you warm in any weather.

Carbon fibre heated panels, powered by an easy-to-load battery pack, provide extra warmth with up to 10 hours of battery life. A micro USB charging cable is included for added convenience.

Features such as a drawcord adjustable hem, elasticated cuffs, and a detachable hood ensure a snug, customisable fit.

With two side zip pockets, internal storage, and a total of four spacious pockets, this jacket is as functional as it is warm. Fully padded and lined for extra insulation, it includes contrast panels for dirt protection, reflective tape for added visibility, and easy grip pullers for practicality.

Three heat settings and up to 10 hours of warmth, stay visible, comfortable, and ready for any weather with this innovative jacket.

Battery pack & Micro USB charging cable included.

Sizes: Medium - XXL.
