## Description

### Portek Terror Kite & Terror Hawk Silent Bird Scaring Kites

Protecting valuable crops from birds requires a smart and dynamic approach. Research shows that regularly varying bird scarers is the most effective method to keep them at bay.

Portek offers the perfect solution with their innovative **bird scaring kite pack**, featuring two highly effective kites designed to deter birds in unique ways. Both kites can fly effortlessly in the lightest breeze, yet each has distinct flight characteristics to maximise effectiveness.

- **Terror Hawk:** Designed to mimic the movement of a natural predator hovering over crops, this kite creates an environment birds instinctively avoid.
- **Terror Kite:** With its constant movement—swooping, diving, and climbing—it disorients birds and keeps them from settling.

Both kites are equipped with reflective eyes and bold predator-inspired colours, proven to scare birds effectively.

Choose Portek for reliable and versatile bird control, ensuring your crops stay protected year-round.

Comprehensive instructions included.

Providing solutions for the farming industry, Ernest Doe & Sons Ltd are on hand for any assistance you may require when purchasing this product.
