## Description

### Portek Double Banger Bird Scaring Ropes (12pcs)

These unique double banger ropes are designed for professional agricultural use, with every other bang delivering a double explosion to emulate the sound of a shotgun.

This innovative design ensures more effective bird scaring in open fields, helping to protect your crops.

Specifically intended for agricultural bird scaring in open fields, these ropes are not fireworks and are strictly for professional use.

Each day rope burns for approximately 5–6 hours, although windy conditions may cause them to burn faster. Bangers are spaced to detonate every 15–30 minutes, ensuring consistent and effective bird control.

Safety is paramount, so always handle with care and wear appropriate personal protective equipment when handling or lighting the ropes.

Comprehensive instructions are included for your safety and convenience.

Portek provides reliable and versatile bird control solutions, giving you peace of mind and year-round protection for your crops.

**Proof of ID will be required upon collection of this product, which is strictly for agricultural use.**

Take control of bird scaring with confidence—choose Portek’s double banger ropes today.

Providing solutions for the farming industry, **Ernest Doe & Sons Ltd** are on hand for any assistance you may require when purchasing this product.
