Noramax Pro S5 Safety Wellington Boots Green

20-10481P

Description

Noramax Pro S5 Safety Wellington Boots Green

Designed for maximum comfort and durability, these boots feature an extra-wide fit, an anatomically shaped foot last, and an ergonomically designed upper, ensuring a natural, supportive fit for all-day wear.

For superior protection, they are equipped with a reinforced steel toe cap for impact resistance and a protective steel midsole to shield against sharp objects and underfoot hazards, making them ideal for demanding work environments.

Crafted from Polyurethane, which contains millions of tiny air bubbles making the boots lightweight with excellent thermal insulation, they remain flexible in temperatures as low as -50°C and offer high resistance to petrol, oils, animal fats, alkalis, chemicals, acids, and cleaning agents, ensuring long-lasting durability.

Complete with an antibacterial lining and an SRC-rated slip-resistant outsole for exceptional grip and hygiene, they also feature a replaceable inner sole for lasting comfort. The self-cleaning, dirt-repellent outsole makes maintenance effortless, keeping you ready for any task.

Providing unmatched protection, comfort, and performance, a reliable choice for agricultural, industrial, and other tough work settings.

We are able to offer zero rate VAT on safety boots purchased by an individual for his/her own use. Please use voucher code novat when you check out.

UK sizes: 7 - 11.
