Description

Werner 8 Tread Adjustastep Pro Fibreglass Stepladder

The Werner AdjustaStep PRO® 8 Tread Swingback Stepladder is built for professionals who demand versatility, safety, and durability on any jobsite.

Constructed from extremely tough, non-conductive fibreglass stiles, it resists weathering and is ideal for electrical environments.

The ergonomic adjustable rear section, combined with a one-handed adjustment system, allows quick and easy height changes—perfect for adapting to uneven ground, stairs, or steps.

With additional features such as an H-spreader for increased stability and a combined EDGE brace and footpad to protect the base tread from damage, this ladder is engineered for safe, heavy-duty use.

Maximum load capacity: 150kg (23st 9lb). Safe Working Height (m): 3.15m (10ft 4in).

Approved to the latest EN131 standard and ideal for Professional use.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
