Description

Silky SUGOI 360 Curved Landscaping Hand Saw

Ideal for pruning large limbs with a super aggressive tooth pattern, the precision-ground, razor sharp blade has four cutting angles boasting an extremely fast, clean and smooth cutting action.

Exceptionally designed curved blade provides greater cutting speed with less effort as the sure-grip handle delivers strength and flexibility right along the full length of the saw.

The hard chrome-plated blade has 5.5 teeth per inch and wipes clean easy to resist rust & tree resin. The blade extension is furthermore encased in the moulded rubber hand grip to absorb vibration whilst cutting.

Comes complete with the custom, high-visibility, yellow plastic scabbard that can be attached to the belt or lower leg.
