Description

Honda EU20I Generator

2000w portable, mains quality electricity, with Inverter technology

Not only is the Honda EU20I Generator easy to use, they're easy to transport and store, too. Because they're lightweight, they're easy to move around, whatever job you're doing. Low noise - It's so quiet you'll hardly notice it's there. The noise-reducing muffler, casing and acoustic panelling greatly reduce the machine's operational noise. Eco-throttle - This is a smart Honda technology that automatically adjusts the engine speed to precisely match the load. This saves fuel, extends engine life and contributes to quieter operation. Parallel operation - Using Honda Genuine Parallel operation cables, you can link two EU10i, two EU20i, two EU30i, two EU30is, or two EU26i generators together to double your output. Note: you can only parallel link two identical units.

We are an authorised **Honda Dealer** and can provide full service back up for your equipment. Check out other products in the range:

Honda 435LE Strimmer **Honda 536VK Walk behind mower** **Honda chainsaw** **Honda HF 2417HM Petrol Lawn Tractor**

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
