Husqvarna RC320Ts AWD

HV-RDRC320TSAWD

Description

Designed for homeowners, RC 320Ts AWD Rider offers durable effectiveness, versatility and ease of use through innovative design. Its unique, non-clogging collection system feeds clippings straight from the front-mounted cutting deck to the 300 l bag.

Automatic compaction increases run time between emptying, so you get more done. Articulated powered steering allows easy tight turns for superior manoeuvrability. All Wheel Drive means superior power and traction in all conditions. Cutting deck servicing and cleaning is tool-free, thanks to the unique 90° service position.

Unbeaten area coverage and huge collection capacity make this a truly worthwhile investment for larger gardens.

ACTech - Non-clog collection. Compacting grass in collector, meaning bigger area coverage. The efficient collection leaves a clean lawn as a result.

Empty collector from the seat - The integrated collector is easily emptied from the driver's seat

Non-collecting mode - Easy switch between collecting and non-collecting mode by just pushing a button. You don't have to leave the driver's seat.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
