Description

Bridgedale Waterproof Midweight Knee High StormSocks

New to market, these Bridgedale StormSocks are ideal for outdoor activities where a balance of warmth and breathability are desired.

Comprising of 3 layers, these knee length Midweight socks feature a dense resilient terry pad footbed, heel & ankle for warmth and cushioning.

A Merino blend knit inner, known for its anti-bacterial, anti-odour & moisture management properties keep your feet warm, dry and comfortable whilst the outer sock prevents the Hydrotech waterproof membrane against abrasion from the boot. A stretch PU membrane together with a matrix lamination process bonds the three layers, ensuring an excellent stretch.

So much more than the average outdoor sock, perfect for wading or when the weather turns particularly bleak but you still want to run or ride in shorts.

Tekkie details: Outer: 95% Nylon, 5% Elastane - Inner: 54% Merino, 36% Polyester, 7.5% Nylon, 2.5% Elastane - Membrane:100% PU.

Large size only.
