Liveryman Black Beauty Mains Horse Clipper

EF-127014

Liveryman Black Beauty Mains Horse Clipper

Developed and tested in the UK, the Black Beauty has been designed to cut through the heaviest of winter coats with ease and capable of running for extended periods without over-heating.

Ideal for Professionals, Yards & anyone who demands a trouble free, hardworking machine.

Reliable- Liveryman have utilised brushless motor technology to develop a clipper that is more reliable, more efficient and more powerful than a standard clipper motor. The Black Beauty's motor has been designed to have less moving parts that are subject to wear and tear. This means less vibration, less noise and increased reliability.

Lightweight- For a large clipper, the Black Beauty is lighter and slimmer than many traditional clippers, resulting in a handset that is easy to handle, manoeuvre and will reduce user fatigue whilst clipping.

Variable Speed- Allows you to be able to adjust the speed of the blades. By slowing the speed you can further reduce the noise level and vibration of the clipper. This is particularly good for nervous horses, horses being clipped for the first time or for clipping more sensitive areas, such as heads and legs.

Clip Anywhere- Whilst predominately a mains clipper, this version has the option to use with either a 2 Hour or 4 Hour **external battery pack**, which provides additional clipping time with no loss of power. This also gives the user flexibility to use the Black Beauty anywhere without the worry of cables on the floor. Extremely useful for first time clipping and/or when handling a sensitive/nervous horse.

Use with Liveryman A2 & A22 Blade Sets for medium to fine results.
