Description

Ascalon Rain Chain Garden Ornament

Suspend from a tree, arch, gazebo or gutter, this quirky and quaint 'Rain Chain' creates a waterfall effect to bring an interesting dimension to the garden.

Coupled vertically, small steel buckets with tiny holes in each allow rainfall to overflow and seep through providing a beautiful visual and trickling sound as it does. The cute little bell on the end adds a nice touch.

Crafted from electroplated & powder coated steel for all weather protection, the decorative feature can also be used to guide rainfall to containers & pots.

Sure to find the perfect spot in any garden or outdoor setting and if not for yourself, a lovely gift for someone special.

Dimensions: H150 x W6.5cm.
