Stein Defender D30 Chainsaw Boots

An excellent value everyday technical Chainsaw Boot offering the wearer Class 2 Chainsaw Protection (24m/s) along with the Safety requirements of EN ISO 20345:07.

Manufactured in Italy from PERWANGER® Leather, the preferred choice of major footwear brands for its proven performance and durability in the most extreme conditions.

Fitted with a rubber protection over the toe cap along with added protection around the heel area providing extra protection to the leather from knocks and scrapes.

Wearer comfort is gained through a climate-regulating membrane which maintains breathability along with anatomical padding inside the boot.

VIBRAM® bi-directional high-profile lug design increases traction and braking combined with the self-cleaning system. VIBRAM® asymmetrical heel has an undercut design for more secure braking and allows for a natural touch down when walking.

The asymmetric lace to toe, speed lace system allows the upper to be tightened in the correct places giving the wearer the best fit possible and the recent introduction of the flat eyelets reduces the chance of catching or snagging when used in conjunction with Foot Ascenders or when Foot Locking.

We are able to offer zero rate VAT on safety boots purchased by an individual for his/her own use. Please use voucher code novat when you check out.
