Our Price: £139.99

Description

Draper Submersible 280L 230V Auto Dirty Water Pump with Float Switch

Ideal for irrigation and clearing ditches, this submersible DIRTY water pump is manufactured with a Ceramic shaft for durability, alongside corrosive resistant materials.

Featuring thermal overload protection, an automatic float switch to turn the pump off when the water level has dropped and a generous 10m(approx.) cable for multi-positioning in water.

Straight forward to set up and use, the pump can deliver a maximum output of 280lts(61gal)/min and part of the DRAPER range created with trades, smallholder & enthusiast in mind.

Supplied with a 25-42mm diameter stepped hose adaptor and approved plug.

If you require any assistance with an appropriate discharge pipe and connectors, our technical staff are on hand and more than happy to help.
