## Kenwood DRV-330 Compact Full HD GPS Dashboard Camera

This premium next generation dash cam features a Full HD recording camera system to capture all the important picture detail.

High Dynamic range technology ensures excellent recording quality even in poor lighting conditions and a built-in 3 Axis G Force Sensor automatically triggers the storage of vehicle impact footage whilst a GPS sensor captures speed and position data at the same time.

As vehicle damage often happens while left in car parks, Kenwood have included an automatic parking surveillance mode (CA-DR150 hardwired fitting kit required), which uses both movement and collision sensors, to capture the possible cause of a mysterious dent. Video footage can be viewed on the internal full colour display or on desk / laptop, via Kenwood's free PC / MAC software (Drive Reviewer).

Size: 62mm x 51mm x 37mm (W X H x D).

Records onto Micro SDHC card (not included) Class 6 or higher (max.32GB).

## Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
