Description

Eclipse Professional 2750C Lazy Tong Riveter

Features a strong 3-piece alloy steel jaw mechanism with hexagonal internal structure for longer life and easy operation.

Lattice section is securely held together with nuts & bolts for extra strength and durability.

Aluminium alloy ergonomic design body with ABS handle for comfortable use

Manually adjustable round knurling sleeve for easy adjustment of the working length or each stroke, making it ideal for working in restricted places.

Requires less effort and is easier to use than traditional gun type riveters as well as easier on the arms & shoulders when popping lots of rivets.

Contains rivet noses for use with 2.4mm, 3.2mm, 4.0mm, 4.8mm & 6.4mm Aluminium & Steel rivets.

In tests the 2750C required only 8.2Kgf of force to pop a 5mm aluminium rivet versus 11.5Kgf force required for traditional lattice riveters.
