

ICL Premium Lawn Dressing 40L

31-40070

Our Price: £10

Description

ICL Premium Lawn Dressing 40L

ICL Lawn dressing is the ideal material for renovation and over-seeding programmes.

Will aid seed germination and give the seedlings vital nutrients to drive full establishment.

Especially formulated, unique ingredients include:-

- Finely graded peat mixed with silver sand
- Wetting agent to help moisture retention and prevent water repellency
- Dolomitic limestone to create a neutral pH ideal for the establishment of perennial ryegrass
- Balanced NPK fertilizer to maintain turf health through the early establishment phase

Apply a very thin layer of dressing over the entire surface of the lawn.

Approximate coverage per bag: 7mm thickness over 6m² or 5mm thickness over 8m².
