## Description

### Portek RufCut Wheeled Heavy Duty Strimmer

Fast as a brush cutter, easy as a mower, the Portek RufCut is designed for clearing larger areas with long grass and thick undergrowth.

Powered by an air cooled 52cc (1.47kW) two stroke engine, the machine is mounted on a high, two wheel chassis and supplied with a heavy duty PowerStrim 6 Mushing Head.

Featuring large, solid puncture proof tyres for light handling, mobility is further enhanced with a unique swivel axle 'Flexi-Cut' head allowing strimming right up to walls and edges with a simple adjustment. A flexible double grip handle provides greater comfort for working on slopes and uneven terrain and fitted with cut out switch for operator safety.

Straightforward to start with electronic ignition and recoil type pull, the unit is easy to transport and store with a fold down handle and benefits from a handy built in toolbox compartment for working in isolated areas.

Easy to manoeuvre making light work of the toughest tasks, this fully adjustable RufCut strimmer is convenient for precision trimming and all purpose mowing whilst reducing fatigue on your body. With no harness to worry about, the RufCut is ready to use and you will appreciate the big engine when cutting waist high grass, nettles & weeds without clogging.

Ideal for small holders, equestrian paddock maintenance & professionals alike, a neat and handy little machine where conventional equipment is just not up to the job.

The RufCut is supplied partly assembled. Please read and fully understand the instructions before operating. Personal Protective Equipment required.
