## Description

### Cooper Pegler CP3 Classic Knapsack Sprayer 20L

Robust and durable thanks to a unique pump system combined with a pressure control valve, this is the ideal knapsack for trouble free protection of your crops.

The CP Classic creates pressure through the deformation of a highly flexible diaphragm which limits friction between the diaphragm and the surface itself making pumping far easier and more comfortable to control.

Internal moving parts are further protected by a tank skirt and apart from routine cleaning, the unit will require no maintenance nor lubrication between uses.

The non-corrosive polypropylene tank has no openings below the liquid level, substantially reducing the chance of user contamination and benefits from a wide fill hole to prevent overflow and dual filtration system to clean out any dirt.

Versatile for a number of business sectors such as horticulture, agriculture, industrial and amenity as an essential land management tool for the Professional & Small Holder.

Like this Copper Pegler CP3 Classic Knapsack Sprayer? Why not take a look at alternative knapsacks in the **Cooper Pegler** range.

## Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
