Description

Wilkinson Sword 111174W Bypass & Anvil Pruner Twin Pack

This Wilkinson premium set contains a pair of deluxe Bypass & Anvil pruners to cover a wide range of pruning requirements this season.

Ensuring the perfect cutting angle every time, they are ergonomic in design and feature high quality SK5 Japanese Steel blades that glide through stems & branches up to 22mm diameter.

For those investing in their first set, the rounded blade is ideally suited to younger, greener growth whilst the anvil blade is blocked to tackle both denser and dead wood.

Finished with soft grip handle inserts to help prevent hand fatigue through the cutting action and a central safety catch for safe transport and storage.

Pruner Length: 260mm.

When it comes to all things wood whether it be tree care, pruning shrubs or hedges, Wilkinson Sword are in their element with over 100 years of cutting excellence.

We have a great range of products to help you create your perfect garden, so why not browse our huge **Garden Collection** today.

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
