Description

Spear & Jackson Traditional Drop Forged Bypass & Anvil Secateurs Twin Set

A premium pair of bypass and a pair of anvil secateurs suitable for cutting both live green stems and harder woody stems.

Traditionally styled with central locking catch and featuring drop forged carbon steel blades for strength and durability along with non-slip cushioned grips to help reduce hand fatigue.

Capable of managing most light pruning tasks in the garden or allotment, an ideal choice for both serious and keen gardeners alike.

Product dimensions: 21 x 11.5 x 2cm.

We have a great range of products to help you create your perfect outdoor space, so why not browse our huge **Garden Collection** today.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
