Description

Spear & Jackson Razorsharp Advantage Telescopic Shears

Features 230mm (9") carbon steel blades with a PTFE coated upper blade for smoother cutting.

The lightweight tubular aluminium handles are telescopic and extend from 340mm (13") to 500mm (19") by way of an easy to use twist lock mechanism.

Giving the user extra reach during use, the wavy edge blades trap stems for more efficient cutting.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
