Description

Haemmerlin 120L Crusader Pneumatic Tyre Wheelbarrow

Whilst it may seem a little strange to be giddy about a wheelbarrow, for those who rely on it's performance day in day out, the 'Crusader', we can assure you is a keeper! One heavy duty wheelbarrow for the heavy duty user!

Oozing strength & stability from the moment you lay your hands on the ergonomic bi-material grips, the top of the range Alpha Frame features an integrated tipping bar and welded all round tubular support.

The 120 litre composite tray is extra thick and super-strong, yet narrow enough for your typical doorways. Crash tested to 575kg, it's a choice no 'building site' can surely resist!

A large pneumatic tyre profile gives a perfect balance over uneven surfaces and enables the user to move large loads with ease. The addition of a solid metal rim disc goes on to provide increased strength & safety.

Perfectly niched between the 110L Vibrante & 300L Colossus Wheelbarrow, a great addition to the Haemmerlin range and an impressive cross-over option for Farming, Equestrian, Horticulture, Home & Trade.

Overall dimensions: L1480 x W620 x H762mm.
