Description

ICL Landscaper Pro Performance Grass Seed 5kg

** Mainland postal delivery available ** Please Telephone +44 (0)1245 383565 for orders above x4 or more **

Landscaper Pro Performance has been bred specifically for use on sportsfields and lawns of all types. It is extremely hard-wearing, so ideal for areas used by children and pets.

Contains a unique characteristic in the form of a grass seed variety called 'Double 4' which is a tetraploid perennial ryegrass.

The key benefits of such a component are fast establishment, increased drought tolerance and lower disease incidence.

Also proven to improve visual appearance throughout the year.

Sowing rate: 35 – 50g/m². **Overseeding rate:** 20 – 30g/m².

Contains: 25% DOUBLE 4 Turf perennial ryegrass, 25% CONRAD 1 perennial ryegrass, 35% SERGEI creeping red fescue, 15% WAGNER chewing fescue.

For an even, all round spread pattern, we thoroughly recommend the ICL AccuPro 1000 Rotary Fertiliser & Seed Spreader.
