Our Price: £20

Description

Roughneck 68238 Short Handled Drain Spade

The Roughneck drainage shovel head is made from fully hardened pressed steel with a strong 660mm (26") fibreglass handle and comfortable double injected "D" grip. It is ideal for digging deep narrow trenches, for laying drains, pipes and cable channels as well as general holes for posts and signs.

The treads on the blade help increase the amount of pressure that can be applied and reduces the risk of slippage.

The strong yet lightweight construction enables increases in efficiency whilst reducing operator fatigue.

Overall length - 1080mm (43").

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
