Atco Quattro 19SH 4-IN-1 Petrol Lawnmower

MT-AOMWQUATTRO19SH

Description

Atco Quattro 19SH 4-IN-1

This stylish mower is packed full of premium features often found only on far more expensive models. With the Honda GCVx145 OHV Autochoke engine powering the 48cm/19" cutter blade and driving the rear wheels, the Quattro 19SH is simplicity itself to use.

Cutting height is easy to adjust within the 25-65mm range using a single lever. The finest cut is achieved with the help of a front skid plate designed to minimise scalping and improve the cut.

A bag full indicator shows when the large 70 litre collector needs emptying. Cleaning after use is facilitated using a hose connection fitted to the chassis.

An integrated front bumper handle and camlock adjusters make moving or folding the handles for storage as quick and simple as possible.

This high-performance mower comes complete with a mulching kit. Insert this device into the discharge outlet to finely cut grass clippings into a nitrogen-rich mulch which is recycled back into the lawn as a natural fertiliser. As no grass cuttings are collected there is no need to stop to empty the grass collector, saving you around 30% of the usual time taken to cut your lawn.

Complete with a side discharge facility, this versatile 4 in 1 cutting system means you can choose from collection, mulching, rear or side discharge.

We are an authorised [Atco](#) dealer and can provide full service back up and maintenance for your Atco equipment.
