Description

Levington Peat Free Organic Blend Top Soil 20L

An organic rich fertile loam-based soil providing a sustainable, rich source of nutrients to promote healthy root growth.

Ideal for making raised beds where existing soil is poor and/or replacing soil that is tired and unsuitable for re-planting of related plants. Can also be used as a component of soil/loam based type composts.

Perfect for new beds and borders, for both young and more established plants as well as levelling lawns too.

Use straight from the bag, it's as easy as that. When filling or potting, firm lightly. Keep the compost moist and do not let it dry out. Do not leave plants standing in water.
