Husqvarna R112C Petrol Lawn Rider

HV-RDR112C

Description

Husqvarna R112C Petrol Lawn Rider

If you want a real Husqvarna ride-on mower, with its ability to navigate around flowerbeds, bushes, trees and other obstacles on your lawn, but size is one of your main concerns, the Husqvarna R112C rider is the perfect choice.

The compact design of this small ride-on mower ensures easy handling even in tight spaces and makes it easy to store. Despite the smaller design of these riders, you'll enjoy excellent traction even in slopes and wet conditions.

Articulated steering lets you turn quickly with a minimal turning radius, and the front-mounted cutting deck gives you an excellent overview of the mowing area.

Combi Cutting Deck With BioClip (Mulching) - BioClip® (mulching) provides perhaps the best cutting result on the market on frequently cut areas. The grass is cut into fine pieces that quickly turn into fertiliser.

Articulated Steering - The articulated steering gives excellent manoeuvrability and facilitates driving around obstacles such as trees and bushes.

Easy-Access Controls - Controls are easy accessible and designed for optimum user comfort.
