Description

Bosch Rotak 36R Electric Rotary Lawn Mower

An electric rotary mower with a 37cm (14.5") working width, Bosch's Rotak 36 R is perfect for routine lawn maintenance in smaller urban gardens where noisier petrol equipment can often cause an unwelcome disturbance. The Rotak 36 R's hardened steel cutterblade is driven by a powerful 1350W Powerdrive electric motor for consistently high torque in all conditions, while cuttings are gathered by the high-airflow 40 litre grass collector to ensure a pristinely tidy finish.

To further improve the quality of cut, regardless of the grass conditions at hand, the Rotak 36 R also features a five-position variable height of cut system with settings ranging from 20mm to 70mm, all controlled via a single easy-access lever

Healthy and comfortable mowing posture - Mow with less effort and maximum control. The Bosch ErgoFlex handles reduce strain on the arms and back by providing a perfect mowing posture. Multiple adjustment switches allow for individual customisation and optimal comfort.
