Description

Honda Izy HRG 466SKEP Mulching Lawn Mower

The Honda Izy now features a brand new GCVx engine, which are lighter, quieter and more efficient. The engines are even easier to start, whatever the conditions, thanks to a new auto-choke system. They are even more tolerant to lower quality fuels, especially after long periods without use. The oil drain, spark plug and air filter have all been made easier to access, for quicker and simpler maintenance.

Lightweight, robust and easy to use, the Izy can turn in the tightest spaces making it perfect for small to medium sized gardens. The pressed steel, powder coated cutter deck is lightweight for manoeuvrability, whilst extremely hard wearing and resistant to deterioration from corrosion and UV rays. To optimise the collecting performance, all Izy mowers have a high airflow collection bags which maximises grass pick-up.

Honda Versamow Mulching - Selective mulching. You can choose whether to collect the grass clippings or shred them into the lawn
