Description

Hayter Harrier 56 Pro - 579A Auto Drive

Mow like a pro with the Harrier® 56 PRO from Hayter's professional rear-roller lawn mower range, now with the world's first Crank-Safe Blade Brake Clutch (BBC) System and the widest stripe in its class!

Save your shoulders by not having to restart the engine over and over again. Instead, thanks to the Crank-Safe BBC System, you can stop only the blade to empty the grass bag and continue to use the drive system to travel across pavements to get to your next patch of grass.

Fitted with a commercial-grade, fixed speed (3.2mph), auto-drive engine provides a helping hand to get the job done faster. Combining that with a strong aluminium cutter deck and steel rear roller, you will be sure to give an impressive 53cm "Hayter Stripe" finish to every lawn day-in day-out.

Made in Britain

We are an authorised **Hayter** dealer and can provide full service support and maintenance for your Hayter product.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
