Description

Hayter Harrier 48 - 60v Variable Speed Cordless Lawnmower

Say hello to a battery-powered mowing experience with the new Harrier 48 cordless lawn mower with a simple push to start button. Thanks to the intelligent Power Boost software you will only use the power you need so that you can easily tackle your medium sized lawn (up to 500 square metres) while still leaving beautiful lawn stripes.

This self-propelled engine with an adjustable speed of 1.7 - 2.9 mph in auto mode and 2.0 - 3.2 mph in Boost Max mode, allows you to mow at your pace and the two piece rear roller will easily allow you to turn at the end of each pass and avoid any unsightly marking of the lawn in the process.

Additional Features:

- Set the power at the highest setting for event tougher conditions
- A two-piece, ribbed rear roller provides superior traction, manoeuvrability and avoids turf marking when turning.
- Easy to use height-of-cut lever. Choose between seven different heights (13 - 60mm) for your desired grass length.
- Easy-wash hose connector allows you to clean the underside of your Harrier® without getting your hands dirty.
- Lifetime Deck Warranty† against any cracking or breaking of the aluminium deck during normal use.
- Trim Side deck design means you can cut right to the edge – ideal for around borders, raised flower beds and retaining walls.
- High performing cut and collection system uses Vari-Pitch™ cutting technology‡ to remove grass clippings once cut.
- High performing cut and collection system uses the front and side fins to remove grass clippings once cut.

 **MADE IN BRITAIN**
