Atco GT30E 48v Battery Lawn Tractor

MT-AORDGT30E

Our Price: £4199

Description

Atco GT30E 48v Battery Lawn Tractor

The GT 30e takes greener mowing to the next level! Zero emissions, less noise, minimal running costs and virtually maintenance free, this ride on lawn mower is the perfect choice for stress-free mowing.

The GT 30e is powered by STIGA ePower premium LG 48V Lithium-Ion 40Ah battery, matching the performance and power of a petrol Garden Tractor with all the advantages of battery power.

Features include pedal operated electric transmission, 1.2Kw transaxle motor and blade engagement with untimed blade rotation. The spacious 240-litre grass collector can be easily emptied from the driver seat via a handy lever. The convenient snap-on hose connector allows for easy cleaning of the underside of the deck to remove the usual garden debris.

The 2 bladed cutting deck with twin blade motors – 1.5Kw motors per blade gives a 5% faster blade speed ensuring a cleaner cut and unmatched collection.

The GT 30e has seven pre-set cutting heights ranging from 25mm to 80mm and by adding a mulching plug (available separately) can be easily converted to allow mulching. An optional rear deflector can also be added to allow for rear discharge where collection is not required.

It is equipped with 2 anti-scalp wheels to help prevent unsightly scalping that can occur when turning on uneven or sloping terrain. The belt and pulley free design along with the no memory effect premium LG Lithium battery mean less maintenance and a longer service life.

The user-friendly LED dashboard allows for smooth digitally controlled power delivery and the fitted headlights facilitate year-round use. Up to 60 minutes running time on a single charge. Suitable for areas up to an acre.

We are an authorised **Atco** dealer and can provide full service back up and maintenance for your Atco equipment.
